PROFILE

Software Engineer with a Computer Engineering background and hands-on experience building enterprise-grade ERP and HR systems. Strong in Laravel, FilamentPHP, and the TALL stack, with additional experience in Angular, NestJS, and PostgreSQL. Focused on scalable, secure, and maintainable systems that improve business efficiency, with solid experience working in Agile, end-to-end development environments.

WORK EXPERIENCE

Full Stack Laravel Developer — DevBeansPH

Oct 2024 – Oct 2025

- Developed and maintained an HRIS using Laravel, FilamentPHP, and the TALL stack, supporting company-wide attendance, payroll, and employee records operations.
- Built dynamic admin dashboards, CRUD modules, and role-based access control (RBAC) to streamline user management.
- Designed and implemented RESTful APIs integrating multiple business modules following SOLID principles and clean architecture.
- Managed relational databases via Eloquent ORM, optimizing queries and ensuring referential integrity across HR, payroll, and leave modules.
- Implemented background processing with Laravel Queues, Jobs, and Events for notifications, report generation, and batch processing.
- Conducted unit and feature testing with PestPHP to maintain code quality and prevent regressions.
- Collaborated in an Agile environment using Git, GitHub, and Jira, contributing to sprint planning, stand-ups, and peer code reviews.

Software Engineer — Jairosoft Inc.

Jun 2024 – Oct 2024

- Contributed to full-stack web development using Angular 16, NestJS, Tailwind CSS, and PostgreSQL.
- Implemented modular, reusable components for enterprise web systems.

Backend Developer (Internship) — Jairosoft Inc.

Feb 2024 – May 2024

- Assisted in backend and API development for a magnetic lock security system using NestJS and PostgreSQL.
- Conducted testing, debugging, and performance optimization for backend modules.

SKILLS

Languages & Frameworks: Laravel, FilamentPHP, Livewire, Alpine.js, PHP, Angular, NestJS, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

Databases & APIs: MySQL, PostgreSQL, Eloquent ORM, RESTful API Development, MVC Architecture

Tools: Git, GitHub, Jira, Figma, Postman, Azure DevOps, VS Code, TablePlus, Herd

EDUCATION

Bachelor of Science in Computer Engineering

2019 – 2024

University of Mindanao – Main

Research Project: Automated Student Vehicle Monitoring System — Embedded Systems, Software Development, and Project Management
